About QuickBooks Online Edition

What is QuickBooks Online?

QuickBooks Online is a subscription-based, web-only version of QuickBooks that helps small business owners manage their business finances in one easy-to-use place.

Features

- **No more data entry:** After you connect your bank account, QuickBooks Online downloads transactions automatically.
- **No more pile-ups:** QuickBooks Online learns your categorizations and reconciles transactions for you.
- **No more manual backups:** Never worry about saving your file to a USB drive. QuickBooks Online is backed up automatically with bank-level security.
- **Less paper to track:** Take photos of receipts and use the mobile app to attach them to transactions in QuickBooks Online.
- **Less on your to-do list:** Schedule reports to run automatically so you don't have to worry about creating them later.
- **Less stress:** If you have an issue, US-based support is available to help 6am-6pm PST, Mon.-Fri.

Connect and Update Your Data

How QuickBooks Online Connects to American Bank

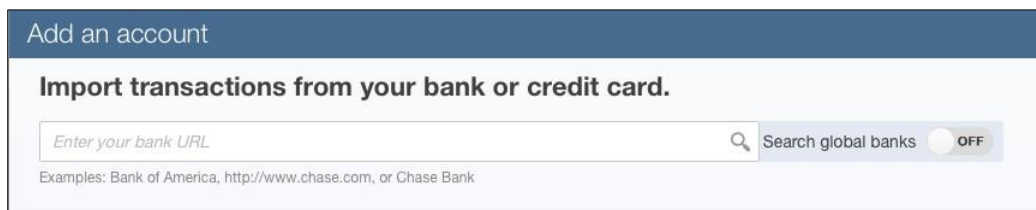

QuickBooks Online connects to American Bank by using your account information with your financial institution's website. If you prefer to manually update your accounts and transaction data, QuickBooks Online also supports OFX Web Connect as set up and update your bank accounts.

Connect Your Online Banking Account

1. Open a web browser and log in to QuickBooks Online at quickbooks.intuit.com.
2. In the Home screen in the Bank accounts section, click **Connect an account**.

3. Enter your American Bank or <https://americanbank.com> in the Search field. Then press Return or click Search. Search is the little magnifying glass icon you see at the right of the entry field.

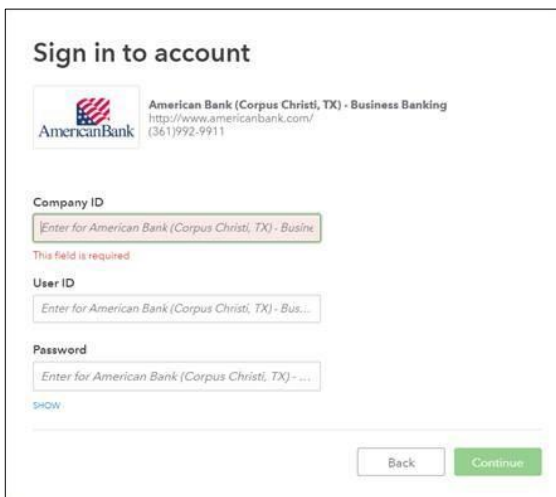

- QuickBooks Online will now display a list with the search results. Consumer clients will need to search for and select “American Bank (Corpus Christi, TX).” Business clients will need to search for and select “American Bank (Corpus Christi, TX) – Business Banking”.

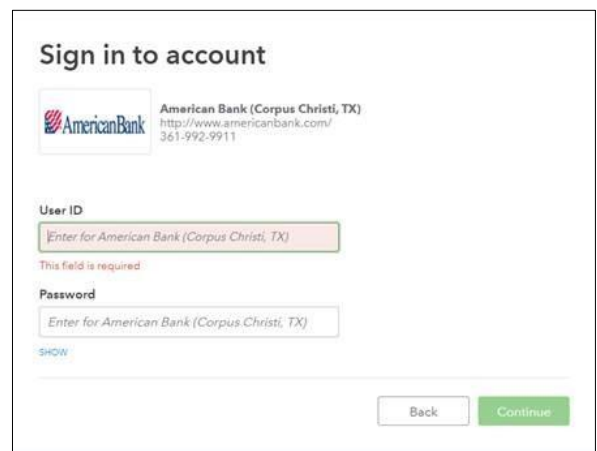

- Click your American Bank account type in the results list. You will see the login window for your financial institution.

8. After you have chosen your accounts and assigned them a type, click **Connect** to complete the account setup.

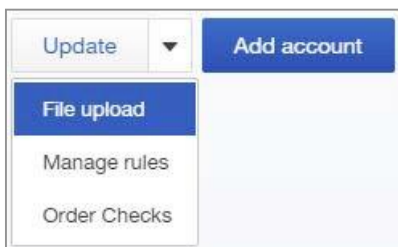

Add an Account Using OFX Web Connect

If you do not want accounts to update automatically, you can use an OFX Web Connect file to configure QuickBooks Online. Follow these steps:

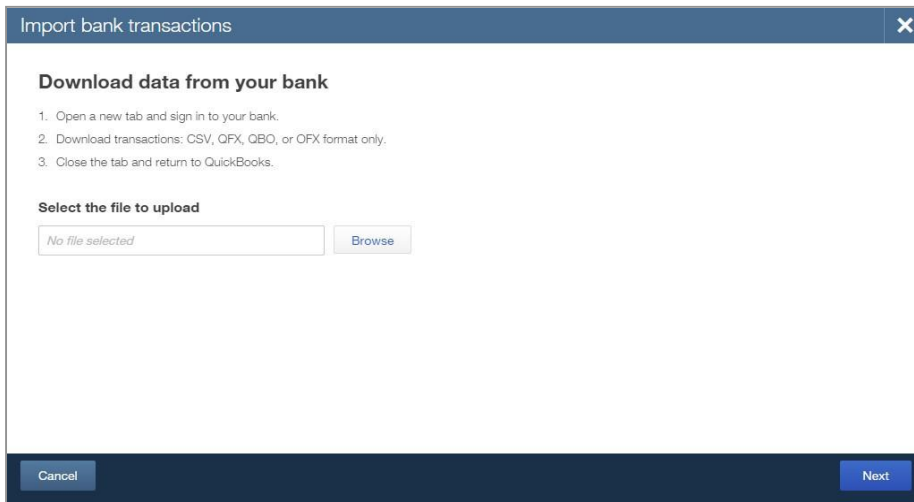

1. Log into American Bank Online Banking.
2. Download a Web Connect file for the account you are trying to set up.
3. If you are given a choice for your download format, choose “QuickBooks Web Connect (*.QBO)” and save the file to your computer.
4. After you download the Web Connect file, open a new browser window and log in to QuickBooks Online.
5. On the sidebar menu, go to **Transactions > Banking**.

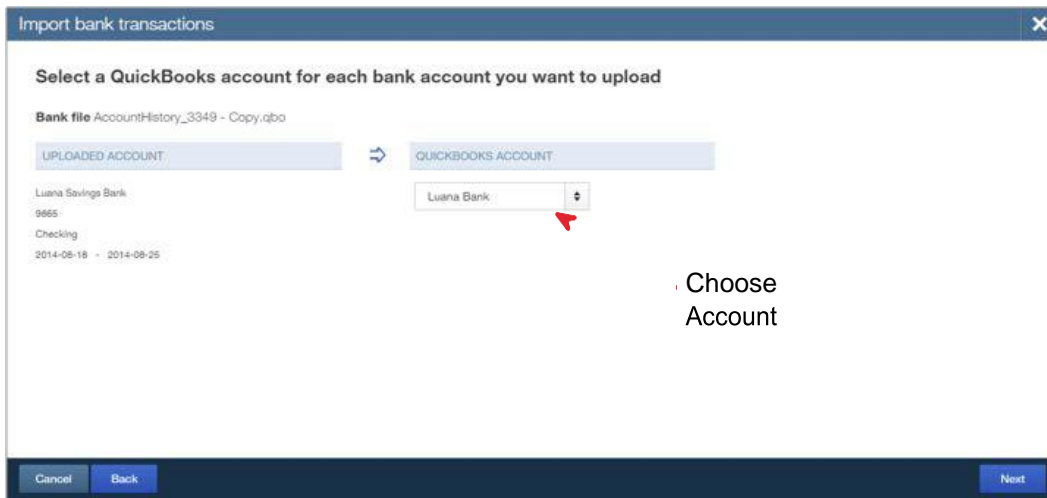

6. Find the Update button on the Banking page and click on the menu arrow.
7. You will see 3 options. Click **File upload > Add account**.

8. You will see the Import bank transactions window. Click **Browse**, choose your downloaded Web Connect file, and click **Next**.

9. QuickBooks Online will prompt you to either associate an account or add a new account. Choose your option and click **Next**.

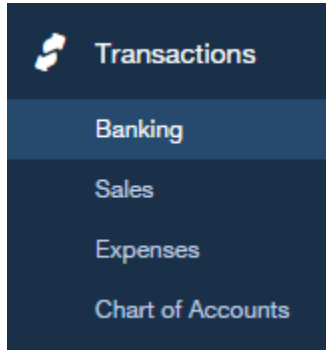

QuickBooks will import the Web Connect file and create your account.

Updating Your Accounts

QuickBooks Online automatically updates your linked bank account data when you log into your QuickBooks Online account. If you are in mid-session, you can use this process to refresh your data:

1. On the sidebar, click **Transactions > Banking**.

2. Click **Update** to refresh your accounts.

Updating Your Accounts (OFX Web Connect)

Accounts you set up using a Web Connect file will not update automatically. To update the data in those accounts, simply log into American Bank Online Banking, download a current Web Connect file, and import it using the process you used to create the new account.
